

Sun City Hilton Head Computer Club

Minutes of the General Meeting Via Zoom
October 15, 2020, 3:00 p.m.

Opening Remarks: Bill McKinnery

Hi Everyone, we've made it through another month and hopefully all of you are healthy and coping with your self imposed confinement. I know many of us have found that using video conferencing, Zoom, has been a big help and in many cases may actually continue to take the place of some in-person meetings.

Our "helpers" have been busy and in some cases we are making house calls, but only if absolutely necessary. The "helpers" list is on the homepage of the Club's website. A link to the "helpers" list has been included in the Club's email - "**This Week at Your Computer Club**" for a number of weeks.

I would like to introduce Stu Mace and Jan Unger who have volunteered to Co-Chair the Membership Committee and take over those duties from Brian Gilroy who has done a great job for a number of years. Thanks Brian and thanks to both Stu and Jan for offering to help with a very important part of the Club's operation.

The Board is working on a good way to conduct the voting in next month's election. We will need a quorum to vote on new officers so I hope all of you will be able to join us for November's General meeting.

Here's Catherine Tracy with the slate of officers.

Our next General Meeting is on November 19th--the speaker is to be announced. It will still be on Zoom. I will post the Zoom Information on the CC Main Calendar and also on the Classroom Calendar as well as announce the speaker earlier. This is a very important meeting as our officers will be elected and we need a quorum. More details will follow. Please send any recommendations for topics to Debbie Dennis at schcceducation@gmail.com

Before I introduce our speaker, I would like to remind people that everyone will be

muted during his presentation. Please use the Chat Function to ask any questions or report any problems.

This month is the 17th annual CyberSecurity Awareness Month. Our speaker today is Sun City resident, Jim Dodmead. He is a Cybersecurity Analyst for the Space and Naval Warfare Systems Center (Atlantic) in North Charleston. He has over twenty years' experience in both the private and government sectors dealing with safeguarding digital information against cyber threats. He will be speaking to us on various issues related to cybersecurity. He is also an avid motorcyclist and involved in many Rotarian fundraising motorcycle rides around the world especially for a cause that has affected my family, polio.

Adjourned at: 4:15 p.m.

Respectfully submitted,

Brenda Sommerfeld, Secretary
